

Worksheet 1 – Look and Think

Student Name _____ Date _____

Step 1: Divide into pairs or small groups of 3 or 4 students. Compare photos 1 and 2. Read the following questions and circle the evidence in the photos.

- When do you think these photos were taken?
- What do you see in these photos?
- What do they tell you about daily life?
- What do these photos fail to reveal about the people and places?
- How do people interact in these photos? How much space is between them?

Allow students 10-15 minutes to complete this exercise. They must also summarize those findings in a single thesis statement.

Step 2: Write group responses on the board alongside the evidence used to support the arguments. After completing part 2 of this activity, write your group's conclusions between the boxes, using a different colored marker or chalk.
