

Quick Analysis Graphic Organizer

Preview: This worksheet will help first observe, then interpret a photograph. Read it over once before you fill it in.

1. **Observe:** Spend 30 seconds looking at every part of the photograph. Then make a list of 10 things that you can point to in the photograph. This is a list of observations.

1.	6.
2.	7.
3.	8.
4.	9.
5.	10.

2. **Interpret:** Based on what you see, write a 2-3 sentence description of what's going on in the photograph.

3. **Pair:** Share your interpretation with a classmate. What did you see that made each of you tell the story that you told? Make sure you understand your partner's interpretation and the evidence they present to support it. Summarize their thinking below.

4. **Share:** Share your discoveries with the class. What have you discovered about observations and interpretations?
